سياسة الصحة و السلامة و الامن و البيئة

Document No.	NSC-L1-03	Effective Date	15-01-2020
Revision No.	00	Page No.	Page 1 of 1

Health, safety, security and environment issues are the priorities of NSC, the company and all its employees and representatives in the ports must comply with the following:

- Provide safe and healthy working conditions.
- Maintaining the company's assets.
- environment protection

In order to achieve these obligations, NSC undertakes the following:

- The company must provide a safe and healthy work environment for all employees and all preventive measures, equipment and clothing,
- The employees of NSC take full responsibility for health, safety, security and environmental measures on work, and they have full authority to stop any work that, in their view, constitutes a threat to health, safety, security and the environment. Accordingly, it is their duty to intervene immediately if there is any activity that does not comply with the safety, health, security and environment standards.
- The direct management is responsible for the level of performance in the field of health, safety, security and the environment, and everyone must do his best to ensure that the workplace is free from any accidents that against health, safety, security and environment rules, or disturb routine work practices.
- Health, safety, security and environmental issues are an integral part of the performance and evaluation of staff and delegates
- The company is committed to implementing training and awareness plans for all its employees in all health, safety, security and environment laws.
- NSC complies with all local and international laws and executive regulations related to safety, security and environment matters. Such as the instructions and guidelines of the local flag authority and the International Ship and Ports Security Code (ISPS)

General Director
